How to use

1. **A page a day, on a grid.** Every day has a timeline from 7am to 10pm, three things for today and a grid for everything else: notes, lists, sketches, journaling.
2. **Everything is a link.** Tap a month tab on the edge, a date, a week number or the path at the top of the page.
3. **Yearly index.** One small box per day of the year, like the classic techo index. Write a word or two per day; tap the date to open that day.
4. **Weeks.** The week on the left, a grid page on the right. Tap a day's name to open it.
5. **One line a day.** The line at the bottom of every daily page is for one sentence about the day.
6. **Start now.** November and December 2026 are included so you can set up before January.

Open the PDF in your tablet's PDF reader (see the Start Here guide) so links and handwriting work. The ≡ tab opens the index from any page.
